

# Action Report

2017-2024

*Shark Conservation Program*

# Dear friends,

Since 2017, All For Blue has stayed committed to its objective. In this report, we've compiled the highlights of the past eight years: hundreds of missions undertaken, the invaluable support from thousands of volunteers, and the collective effort that has resulted in the removal of hundreds of tons of waste from our coasts and seabeds.

Everything we present here serves as a stepping stone for our future endeavors. We extend our gratitude to the numerous students who participated in our educational programs, the passionate citizens who joined us in coastal clean-up initiatives, and the certified divers who tirelessly assisted us in removing plastic, metal, and other debris from the seabed. Our appreciation also goes to all the public and private entities who have shared with us the responsibility for environmental protection.

At the same time, we would like to express sincere thanks to our partners who form the vital network of our organization. The goals we have reached thus far, coupled with the overwhelming response we've received, fuel our determination to continue our efforts. We are committed to transforming our vision into our reality.

A big thank you from the depths of my heart!

## We envision a clean ocean and an educated young generation.

Our philosophy is based on the principles of volunteerism, solidarity, and sustainable development. We implement our programs with the aim of selfless contribution and cultivating a way of life that protects the environment. We believe that educating young people is the core of change. We invest in the next generation, providing them with the necessary tools to shape a sustainable future. We collaborate with schools, communities, and companies to implement educational programs and beach and underwater cleanup initiatives. The strength of the team is what drives us. Together, we can achieve significant goals and create a better future for our planet.

Rhodes

Keep Aegean Blue program

All For Blue is a Greek, non-profit organization with international actions, with the mission to educate the future generations and raise awareness on the protection of the marine ecosystem. Founded in 2017, All For Blue aims at experiential education, cultivating new standards of behavior and contributing to the shaping of citizens with environmental responsibility.

Syros

## Our main programs:

# 01

### Organizing Educational Seminars for the Protection of the Marine Ecosystem

In our educational seminars, we transfer the knowledge that the All For Blue team has gained through years of action, both beneath the sea's surface and on the shores, in an experiential way. Through our experiences, we become the "eyes" that allow participants to discover the magic of the oceans and understand the importance of protecting them. The seminar topics highlight the value of protecting and properly managing the marine ecosystem, aiming to convey fundamental concepts such as "sustainable management" and "sustainability." At the same time, we provide practical guidance, encouraging participants to actively contribute to preserving the marine environment. Particular emphasis is placed on the importance of reducing plastic use, promoting a responsible, environmentally conscious lifestyle.

Porto Rafti

## 02 Hands-on Beach and Underwater Cleanup Activities

Through beach and underwater cleanups, we promote cooperation and teamwork. Our goal is to educate participants on organizing and executing beach cleanups, strengthen collective action, and raise awareness about the protection of the seas. Following the zero environmental footprint protocol applied to our actions, our volunteers use All For Blue's reusable equipment. The underwater cleanups are conducted by certified divers, while the waste collected is weighed and categorized by material type in a global database. This process contributes to the collection and analysis of critical environmental data to monitor marine pollution and develop strategies for protecting marine waters.

## 03 Circular Economy - Giving Waste a New Life

One of the fundamental principles of the circular economy is the reuse of items. The plastic waste collected from the seabed and beaches is processed, cleaned, and transformed into building materials that are then used to construct recycling bins. Through this process, plastic waste returns to the local community in the form of practical items, demonstrating that every product at the end of its useful life can be repurposed. In this way, we showcase the potential for material reuse, promoting sustainability and reducing the environmental footprint.

## 04 Educational Missions Abroad

All For Blue operates with a vision to spread the values of volunteerism and contribution to as many regions of the world as possible. Through our actions, we bring together people from diverse backgrounds and cultures to serve a common purpose. In 2023, volunteers from our team with varying levels of experience and familiarity with the sea embarked on a journey to three local islands in the Maldives. During our mission, we organized educational seminars and beach cleanups in collaboration with 1,000 students, thereby enhancing their environmental awareness. A love for the sea, the underwater world, and its marine creatures, combined with a sense of contribution and solidarity, was the driving force behind the success of this mission.

## 05

## Art Competitions with Creations from Waste Collected by Students

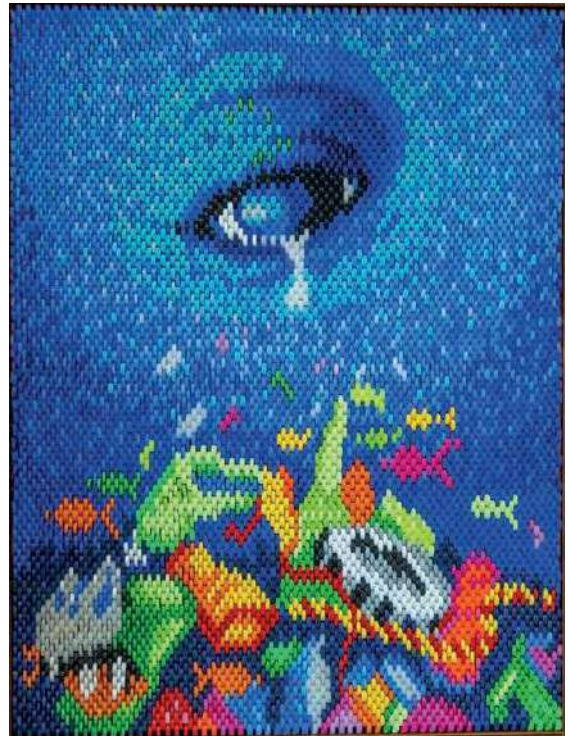

Applying the principles of the circular economy and fostering children's creativity, we organize art contests in various locations we visit. Students, along with their teachers, create artworks from the waste they have collected, showcasing the importance of reuse. The artworks are displayed in central locations, and voting takes place online through the organization's website. The winners are awarded reusable All For Blue equipment for beach cleanups and recycled plastic bins for their schools.

# Volunteering

**Volunteering for the All For Blue team is not just a condition, it is a way of living.**

Through our experiential actions but mainly following our training seminars, during these eight years (2017-2024) many voluntary local groups have been created in Greece and abroad.

Some of our most active groups, with monthly coastal cleaning activities, are those in Athens, Corfu, Kalymnos, Syros, Mykonos but also in the UK, Miami, the Bahamas, South Africa, France, French Polynesia, Cuba, Los Angeles and Hawaii.

# “2024

## January

- **Syros** - Beach cleanup at Agathopes beach by the island's volunteer team.
- **#KeepMaldivesBlue** - Educational mission across three local islands in the Maldives involving 500 students and 10 volunteers from our team.

## February

- **Rhodes** - Online educational seminar as part of the TUI Junior Academy program by All For Blue.

## March

- **Attica** - Participation in the “Sea and Tourism” EXPO at MEC Paiania.
- **Litochoro** - Beach cleanup by the local team on a beach in the area.
- **Rhodes** - Mission as part of the TUI Junior Academy program by All For Blue, with the participation of 660 students from local schools.

## April

- **Attica** - Participation of All For Blue in the “9th Our Ocean Conference.”

ELLE Run

- **Attica** - Beach and underwater cleanup at the B' Alimos Seaside Zone in collaboration with Garnier for “Earth Day.”
- **Rhodes** - Mission as part of the TUI Junior Academy program, with the participation of more than 1,000 students.
- **Attica** - Participation of All For Blue in the 12th TEDxAUEB at the Athens University of Economics and Business.

## May

- **Patmos** - Online seminar, Beach and Underwater cleanup at Lampi beach with students from the island as part of the 30th anniversary crossing of the Aegean Team.
- **Drossia, Boeotia** - Educational seminars, Beach and Underwater cleanup at Panagitsa beach in collaboration with Garnier, with the participation of 280 students.

## June

- **Attica** - Citizen Day Beach and Underwater Cleanup at B' Alipedo beach with the participation of L'Oreal employees.

*3rd Free Diving School*

- **Attica - Citizen Day Volunteer** action at the "Krikos" center and boccia court construction with the participation of L'Oreal employees.
- **Attica - Citizen Day Volunteer action at PIKPA Voula** with the participation of L'Oreal employees.
- **Attica - Beach and Underwater cleanup at Edem beach in Palaio Faliro** with employees of ENAON.
- **Attica - Beach cleanup at Alykes Vravrona** beach with employees of Archirodon for World Oceans Day.

**July**

- **Corfu** - Beach cleanup at Paleokastritsa beach by our local volunteer team.

**September**

- **Attica** - Beach cleanup at the B' Alipedo in collaboration with Tiger Like.
- **Thessaloniki - Beach and Underwater cleanup** at a beach in the Municipality of Pylaia-Chortiatis with participation of ENAON employees.
- **3rd Free Diving School in collaboration with Garnier.**
- **Oinousses - Educational seminar,** Beach and Underwater cleanup with students from the island in collaboration with Garnier.

**October**

- **Rhodes - Mission as part of the TUI Junior Academy** program with the participation of more than 1,500 students.
- **Rhodes - Beach and Underwater cleanup** at Ixia beach in collaboration with Aurinkomatkat.
- **Crete - Beach and Underwater cleanup** at Maleme beach in collaboration with Aurinkomatkat.
- **Attica - Beach cleanup at Asimakis beach** in Lavrio in collaboration with GEP.
- **Participation of All For Blue in ELLE Run#SaveThePlanet.**

**November**

- **Drossia, Boeotia** - Beach and underwater cleanup in collaboration with Garnier, with the participation of 81 students.
- **#KeepMaldivesBlue - Mission at two local islands in the Maldives,** Educational program and Beach cleanups with the participation of 121 students and their parents from the local schools.

# “2023

Anavyssos

## January

- **Syros - Agathopes beach** cleanup by our local volunteers' team
- Corfu - Erimitis beach cleanup by our local volunteers' team

## February

- **Corfu - Kerasia beach** cleanup by our local volunteers' team
- Rebuild Erasmus+ program - Participation in the program supporting the Re-liders initiative
- **Online educational seminar for 43 Aurinkomatkat** employees based in various location across the globe
- **Participation in the Natex Show at Tae kwon do stadium, Palaio Faliro**

## March

- **Attica - Educational Seminar** for the 1st Elementary School and the 2nd Special Education Elementary School of Piraeus in collaboration with Garnier

## April

- **Syros - Lazareta beach** and underwater cleanup in collaboration with Garnier
- **Attica - Educational Seminar for the Special Education Primary School for the deaf and partially deaf of Pefki-Lykovrisi in collaboration with Garnier**
- **Attica - Anavyssos beach** and underwater cleanup and online educational seminar for Grant Thornton employees
- **Attica - Porto Rafti beach** cleanup with Kyriakidis-Georgopoulos law firm partners and their families

## May

- **Agioi Theodoroi - Kalamaki beach** and underwater cleanup and educational seminar with Hellenic Cables employees
- **Online educational seminar** for students in various schools outside Attica and new All For Blue volunteers

Rhodes

- **Attica - Hamolia beach** cleanup and online educational seminar for SOL SA employees
- **Attica- Celebrating the 'Value Through Innovation (VTI) Day'** at Palmira beach with a beach and an underwater cleanup as well as an educational seminar with employees from the pharmaceutical company Boehringer-Ingelheim
- Online educational seminar for 38 Aurinkomatkat employees based in various location across the globe
- Volos - Anavros beach cleanup with the students and teachers of the 24th Primary School of Volos

### June

- **Mykonos - Ftelia beach** cleanup and educational seminar for Virgin Voyages employees for the World Oceans' Day
- **Attica - cleanup at Schinias beach** with students and teachers from the preschool education school "the Littles"

Maldives

- **Kalymnos - Gefyra beach** and underwater cleanup by the local volunteers' team
  - **Litochoro - first beach cleanup of the local team**
  - **UN World Oceans Day - Giovanni Prete, All For Blue ambassador attended the UN World Oceans Day celebrations at the UN HQ in New York City**
- July**
- **Mykonos - Fokos beach** cleanup and second educational seminar for Virgin Voyages employees
  - **Corfu - Arias beach** cleanup by the island's local volunteers' team

### August

- **Corfu - Halikounas beach** cleanup by the island's local volunteers' team
- **Corfu - Avlaki beach** cleanup by the island's local volunteers' team

## September

- **Salamina - Agios Nikolaos beach** and underwater cleanup with Selinia Cultural Association of Salamina and My Market's employees in collaboration with Garnier
- **Corfu - Barbati beach** cleanup by the island's local volunteers' team
- **Rhodes - Near Aquarium beach** and underwater cleanup in collaboration with Aurinkomatkat
- **Launch of TUI Junior Academy by All For Blue program**- 1st visit to Rhodes for 2023 - Educational seminars for More than 880 students aged 6-12 from Primary schools in Lardos, Pylonas, Lindos, Malonas, Massari, Gennadi, and Archangelos - Beach and underwater cleanup at Gennadi beach

## October

- **2nd Freediving Course for All For Blue's volunteer** by One Breath freediving in collaboration with Garnier
- **Attica - Flivos beach** cleanup and educational seminar for Children's SOS Villages of Greece
- **Attica - Alimos beach** and underwater cleanup and online educational seminar with Amgen
- **Kinaros - mission for the delivery of supplies to Mrs. Rini, the only inhabitant of the island - beach and underwater cleanup**

Rhodes

- **TUI Junior Academy by All For Blue program** - 2nd visit to Rhodes island for 2023 - educational seminars for 900 students of four Primary schools and the 1st EPA.L. in Rhodes town
- **Delos - #KeepDelosBlue underwater and beach cleanup on the sacred island**
- **Naxos - Educational seminar** at Naxos' High School for the program YOUTH REACTION (YOUTH in REMote areas become ACTIVE citizens and take action) with Iasis NGO

Freediving Course

## November

- **Attica - Educational seminar** for the Special Education High School for the deaf and hard of hearing of Argyroupoli in collaboration with Garnier
- **Attica - Alimos beach** cleanup with the Special Education Primary School for the deaf and partially deaf of Pefki-Lykovrisi in collaboration with Garnier
- **TUI Junior Academy by All For Blue program** - 3rd visit to Rhodes island for 2023 - educational seminars for 882 students of five Primary schools and the 5th Secondary School in Rhodes town - 2 beach cleanups at Zefiros and Kova beach
- **Morocco - Remedies for Ocean EU Horizon Project, participating in panel discussion** regarding plastic pollution

## December

- **#KeepMaldivesBlue:** Mission to conduct educational seminars and beach cleanups in three local islands in the with the participation of 500 students and 10 volunteers from our team
- **Presentation of the organization at the United Nations COP23 conference in Slovenia**

*Salamina*

*Rhodes*

# “2021

## January

- **Participation in the international campaign #SharkFinning** in collaboration with the European organization StopSharkFinning.eu
- **Cooperation with the store “Argolikos”** for ecological reusable products of All For Blue
- **Receipt of a submarine drone from the company Sofar** for the underwater cleaning actions which we won in an international competition
- **Kalymnos, January-June, 36 coastal** and under-water cleaning actions by the volunteer team of the organization in collaboration with the sports club Proteas

## February

- **Vodafone Foundation:** creation of educational videos with SeaStem Activities, by Michael Marinakis, member of the national robotics team as part of his six-month work in the organization, with alternative ways of protecting the marine ecosystem for contactless cleaning
- Online seminar and training of young All For Blue volunteers

## March

- **Training seminar for students of Aristotle University of Thessaloniki** for the protection of the marine ecosystem in collaboration with Garnier
- **Development of a network of volunteers and creation of eight (8) new volunteer groups in different areas of the country**

## April

- **Participation of a team of the Organization** in the food of Nea Makri for the support of the organization “The Other Man”.
- **Syros** - Beach cleaning action in Finikas by the volunteer team of the island
- **Corfu** - Kassiope beach cleaning action by the volunteer team of the island

## May

- **England**, beach cleaning by our team of marine biologists in Eastbourne
- **Training program** for Medochemie staff
- **Corfu - Cleaning** of beaches by the group of volunteers in Kassiope

- **Alimos - Savvas the Recycling Fish** is placed at the Cine Alimos point with the sponsorship of the pharmaceutical company Medochemie after a coastal and underwater cleanup by the group of divers of the organization
- **Kavouri** - beach and seabed cleaning in collaboration with Garnier
- **Mykonos - installation of 10 recycling bins in central locations**, for the collection of plastic lids in support of the action "To Kapaki Na Kratas" by Georgios Kafentzis

## June

- **World Oceans Day:** parallel activities in Corfu, Mykonos, Kalymnos, Syros, Tinos, Symi, Attica by local volunteer groups
- **Mykonos - beach and seabed cleaning in Gialos in Chora** in collaboration with KDEPPAM
- **Mykonos - training seminar** for the staff of the PACHA Group with coastal and underwater cleaning at Gialoudia beach
- **Kineros - mission for the supply of food and medicine to Mrs. Rini, the only inhabitant of the island**
- **Attiki** - Installation of 25 bins made of granulated plastic in the SOS Children's Villages in collaboration with the company Garnier
- **Metamorfofi Attica:** Online seminars for the protection of the marine ecosystem in primary schools of the Municipality of Metamorfofi in collaboration with Garnier.

## July

- **Mykonos, Circular economy** - installation of 8 bins made of plastics that we removed from beaches and seabeds, in central parts of the island in collaboration with KDEPPAM
- **"My Greek Odyssey"** documentary - a tribute to All For Blue's projects

## August

- **Mykonos - Seminar** for the protection of the

marine ecosystem to primary school students and coastal cleaning at Myrsini beach

### September

- **Delos - #KeepDelosBlue** underwater and coastal cleaning on the sacred island in collaboration with Intermed and Uni-Pharma
- **Mykonos** - cleaning of Ftelia beach with members from the American organization Your Best Life and presentation from the All For Blue team
- **Voula B 'Beach** - beach and seabed cleaning in collaboration with Dell

### October

- **Mykonos** - cleaning of the beach of Avlemonas in collaboration with the Pacha Group
- **Alimos - beach** cleaning by the children's team of the organization
- **Kalamaki - beach** and seabed cleaning in collaboration with the company Garnier
- **Artemis - educational seminar for secondary school** students and coastal and underwater cleaning activities
- **Santorini - training seminar and underwater and coastal cleaning action in Ammoudi bay** in collaboration with Canaves Oia Luxury Hotel
- **Attica - beach** cleaning in Schinias with the company MetLife
- **Syros** - beach cleaning in Finikas by the local volunteers' team

### November

- **Porto Rafti** - educational seminar and beach and seabed cleaning with 5th grade students from the CGS school
- **Koropi - Special Education High School,** educational seminar for 80 students
- **Alimos** - coastal cleaning with the voluntary group of Attica students of the organization
- **Vogue** - a tribute to the activities of the organization
- **Bahamas, Freeport - collaboration with Cristina Zenato for her participation in the educational activities of the Organization and her declaration as an honorary member of All For Blue**

Syros

## December

- **Bahamas, Bimini** - participation of the organization's team in a research project in collaboration with the Bimini Shark Lab
- **Georgia, USA** - educational seminar to the students of Tybee Island Maritime Academy and beach cleaning action
- **French Polynesia, Toau** - mission to clean up beaches and seabed and capture sharks in collaboration with a local organization

Sxoinias

## Media reports

We joined hands with other organizations from around the world, taken part in conferences and exhibitions, given interviews.

Our actions have been resonated by many media outlets that have helped us communicate our work, raise awareness and discover new partners. Our network of marine advocates, ocean champions and supporters continues to grow, making us stronger and our voice louder.

## Οινούσσες: Η θάλασσα είναι στα χέρια μας

Βίβλος Αγιάς

Την Τρίτη 24.09.2024 η All for Blue επισκέφθηκε για δεύτερη χρονιά τις ακριτικές Οινούσσες πραγματοποιώντας με τους μαθητές όλων των βαθμίδων εκπαιδευτικό περιβαλλοντικό σεμινάριο, το οποίο περιλάμβανε θεωρητική ενημέρωση και πρακτική εφαρμογή.

Η δράση ξεκίνησε με την προβολή ενός ιδιαίτερα κατατοπιστικού βιρσιού ντοκιμαντέρ για την προστασία του θαλάσσιου οικοσυστήματος, στο οποίο παιδιά κι εφηβεία διδάχθηκαν με ποιον τρόπο μπορούν να συνεισφέρουν στη διάσωση του θαλάσσιου οικοσυστήματος, όπως με την αποφυγή χρήσης πλαστικών.

Στη συνέχεια πραγματοποιήθηκε κι είχε βιωματικό σεμινάριο της παραλίας Ζέστεγο, όπου τα παιδιά πήραν τα ειδικά επαναχρησιμοποιήσιμα γάντια, χωρίστηκαν σε ομάδες κι όλα μαζί καθάρισαν την παραλία. Τέλος, έγινε επίδειξη του υποβρύχιου καθαρισμού από δύτες-εκαθαικτές της «All for Blue».

Στόχος της κίνησης ήταν να συνειδητοποιήσουν τα παιδιά ότι το φυσικό περιβάλλον επαφίεται στο δικό τους χέρι καθώς αποτελούν την τελευταία γενιά, η οποία έχει τη δυνατότητα να κάνει τη διαφορά στην προστασία και τη διάσωση των θαλασσών.

Ο Δήμος Οινουσσών με την παρουσία των αντιδημάρχων κ. Ευγενίως Γ. Χαυλιά και κ. Κων/νου Μπ. Λασινη στήριξαν κι ενίσχυσαν την προσπάθεια και διεξαγωγή της δράσης.

*«Φερόμαστε θερμά συγχαρητήρια και εγκάρθεις ευχαριστίες στις εθελόντριες της «All for Blue» κυρίες Εύη Μάλλiou, Αντιγόνη Βασιλοπούλου, Νικαλία Κεφίδου και Μαρία Ράπη, αλλά και στο Λιμενικό σώμα, που ήταν κοντά μας», αναφέρει σε ανακοίνωσή του.*

114 κιά απορριμμάτων απομακρύνθηκαν από την ακτή και τον βυθό

18 November 2024 - 19:11

Με στόχο να συμβάλουν στην προσπάθεια για την αποκατάσταση των παραλιών του Βόρειου που πλήττονται από την ρύπανση μετά τις καταστροφικές ηλμύρες, η Garnier σε συνεργασία με το Super Market Μασούτης και τον πελάτη All For Blue, καθάρισαν την παραλία Βούβλια στο Βόρειο. Στην ενέργεια συμμετείχαν περισσότερο από 80 μαθητές των τοπικών σχολείων εθελόντες και όστις, αφαιρέθηκαν 114 κιά απορριμμάτων από την παραλία, νάμα και τον βυθό, και πάνω από 1.000 αποβλήτα!

**Φανή Σοβιτσιλή**

Δράση καθαρισμού στην παραλία της Πυλαίας αντίστοιχες εθελοντές της Σπουδαίας Βιώσιμης Διεθνούς Ένωσης και Ένωση ΕΕΔ, στο πλαίσιο των Αράδων Εταιρείας Κοινωνικής Ευθύνης σε συνεργασία με τον Όμιλο Πυλαίας - Χορτιάτη και το μη κερδοσκοπικό οργανισμό All For Blue, ανέπτυξαν μέγιστο για ένα καθαρό και βιώσιμο μέλλον στις ακτές της χώρας μας.

Αυτή τη φορά η ομάδα των εθελοντών επέλεξε την παραλία της Πυλαίας, όπου βύτες βυθίστηκαν στο βυθό, απομακρύνοντας πλαστικά και άλλα απορρίμματα από την ακτή.

Η δράση, έγινε παρουσία και του δημάρχου Πυλαίας - Χορτιάτη ηγέστη Καϊτεβίδη ο οποίος αναφέρθηκε στην σπουδαία προμετρία της Ένωσης και του All For Blue, λέγοντας ότι εκπέμπουν ένα πολύ σημαντικό μήνυμα.

Μάλιστα δέσφηση της επικαιρίας μινιστοποίηση και τις προμήθειες που καταβάλλει η δημόσια αρχή για την υλοποίηση του μεγάλου ρεζέρβι που αφορά στη ναυπηγική μάρμρα οκράν στην παραλία της Πυλαίας.

**Π**λισπάζεις και αισθάνεσαι πάντα έδος. Το νησί στο κέντρο του νησιωτικού συμπλέγματος που έδωσε στις Κυκλάδες το όνομά τους έχει διατηρήσει τον αρχαίο του μυστικισμό. Τον ιερό χαρακτήρα που απαγόρευε κάποιος να γεννηθεί ή να πεθάνει στα κομμάτια της. Οι ήρωες αρχαιολόγοι που ζουν μόνιμα εκεί δίνουν καθημερινό αγώνα διαβίωσης και εργασίας σε αντίθετες συνθήκες ώστε οι χιλιάδες επισκέπτες να υποκλίνονται στην ομορφιά της. Όμως ο βυθός της πάσχει. Κάτω από την επιφάνεια του κρυστάλλινου νερού υπάρχουν απορρίμματα που αφάνιχνον πίσω τους όσοι πτάνουν εκεί με πλαστικά. Κάθε λογής σκουπίδια που παρότι δεν φαίνονται, αποικλούν το μίσθια του σύγχρονου ανθρώπου. Την περασμένη Κυριακή η ομάδα **All For Blue**, ένας ελληνικός περιβαλλοντικός οργανισμός με διεθνή ακτινοβολία που ίδρυσε η **Κατερίνα Τοπούζογλου**, με μια οργανωμένη δράση συγκέντρωσε 757 κιλά σκουπιδιών από τον πυθμένα. Καπέλα, μππόνια, λεκάνες, σαγιονάρες, σφουγγαριστές, σκούπες καθώς και δεκάδες πλαστικά

### All For Blue: Η «Συριανή» αποστολή με την Κατερίνα Τοπούζογλου στην Κίναρο για την κυ Ρήνη!

18/10/2023 22:03

Η ομάδα μας σημεριμάτια της Κυριακής ακολούθησε το δρόμο προς την Κίναρο, μια μαγική νησίδα στο Αιγαίο πέλαγος. Αυτή τη φορά, είχαμε σκοπό όχι μόνο να καθαρίσουμε το βυθό, να παμε φόρμα για τα ζώα και προμήθειες στην κυρά Ρήνη, τη μοναδική κάτοικο του νησιού, αλλά να βάψουμε την ελληνική σημαία στην ταράτσα της.

Η κυρά Ρήνη είναι μια γυναικα εξαιρετικής δύναμης και τόλμης που μας εντυπωσιάζει. Μας υποδέχτηκε όπως πάντα με χριμόγελο και όσο έπιπε τον ηρωισμό της κυράς μας (ερακίσουμε τις δράσεις).
